

Changing Author in Libre / Open Office (Original) [Link](#)

```
Sub Change_Author
    sAuthorName = InputBox("Please enter name of author:", "Dear User")
    ThisComponent.getDocumentProperties().Author = sAuthorName
End Sub
```

Changing Author in Libre / Open Office (Better Version)

```
Sub Change_Author
    Dim sAuthorName As String
    sAuthorName = InputBox("Please enter name of author:", "Dear User")

    ' Only update if the user didn't cancel or leave it empty
    If sAuthorName <> "" Then
        ThisComponent.getDocumentProperties().Author = sAuthorName
    End If
End Sub
```

Changing Author in Libre / Open Office (MS Word version)

```
Sub AppendAuthor()
    Dim cAuthor As String
    cAuthor = ActiveDocument.BuiltInDocumentProperties(Word.wdPropertyAuthor) & chr(32) & "New Author"
    ActiveDocument.BuiltInDocumentProperties(Word.wdPropertyAuthor) = cAuthor
    Debug.Print ActiveDocument.BuiltInDocumentProperties(Word.wdPropertyAuthor)
End Sub
```
